

## ARCHIVES REPORT 2009.

It becomes apparent week by week as we go about documenting and recording the large amount of material which comprises St. John's Parish Archives, the absolute necessity for our history, both former and contemporary, to be preserved in an accessible manner, and we endeavour to do this.

The following is a record of some of the activities during the year, although we may have omitted to record some items and for that we apologise. We anticipate the first few months of 2010 will be dominated by St. Saviour's Centenary and we look forward to that event, and the continuation of work in hand.
